

What to Look for in Flooring Equipment

Look for Silver-Line, manufacturers of the world's finest floor sanders and get professional results every time.

Speed

- For Drum Sanding no more than 1800 Rpm's. Maintain a SLOW CONSTANT SPEED!!
- Variable speed, and faster Drum Sanders will cause uneven sanding. They tend to gouge your precious floor!

Drum

- A soft rubber drum, with a professional easy to use sandpaper locking system that will not leave chatter marks.

Control / Ergonomics

- Easy Control , Tilt Action Sanders that lift off the floor when not in use.
- Both Hands are always on the sander unlike a lever action sander. This allows for total control of the sanding action with no gouging.
- Quiet Dust Free Sanding. The Silver Line SL8 Drum Sander has a quiet motor and the largest dust pick up system in the Industry.

Edgers

- Our Edger runs at 3600 Rpm's. It has a Heavy-Duty Disc Pad and Casters. It is very well balanced and easy to install the paper, producing a beautiful finish.
